FROM CONCEPT TO REALITY

Please join in the presentation of this thought-provoking collaborative furniture design project.

The Sankofa Project will feature eclectic student designed patio furniture inspired by African Adinkra symbols.

The furniture will become part of the permanent collection of the Brazos Valley African American Museum.

HYE WON HYE
"ENDURANCE"

Tune into a live virtual artist talk featuring social activist and multi-disciplinary artist, Ann Johnson, Assistant Professor of Practice in Art at Prairie View A&M University. She will share the furniture her team designed for the Brazos Valley African American Museum, with support from an AVPA Arts Enhancement Grant at Texas A&M University. The project is the result of a collaboration between the School of Architecture at Prairie View A&M University, the Texas A&M College of Architecture's Wright Gallery, with support of the Academy for the Visual and Performing Arts, the Texas A&M College of Architecture Diversity Council and the Automated Fabrication & Design Lab.
