

The PVAMU student Gmail migration to Office 365 will be completed next week!

Greetings!

The migration from Gmail to Office 365 is nearly complete. Please use Microsoft O365 at www.office.com for emails. You can also download the Microsoft Outlook app available in Google and Apple app Store to access your email on your mobile device.

Starting *Friday April 2, 2021 at Noon* you will no longer be able to use your Gmail account to send and receive emails.

Although you will retain access to your Google Drive, now is a good time to clean out and back up files to ensure you have access to them while we are migrating documents to your Microsoft OneDrive.

Over the weekend, during the final steps of the migration from Gmail to Office365, there may be times that emails sent to your @student.pvamu.edu will take longer to be available in your Outlook inbox.

Anything sent to your @student.pvamu.edu account will forward for now; however, we ask that you transition any accounts using @student.pvamu.edu to @pvamu.edu sooner rather than later.
