Subject: Loaner Hotspots Available to Tech it out

American Campus Community (ACC) and Hotwire are currently working to address the wifi outage in on-campus housing. Hotwire is also working to upgrade the wifi to hopefully help mitigate such outages in the future.

In the meantime, we are making more loaner hotspots available. These are first come, first serve. If you need one, please fill out the request.

Request a Loaner Hotspot

For all other IT related questions, please call the helpdesk at 961-261-2525.
