

PVmobilenet now at the Northwest Center!

Safe Connect and PVmobilenet Wireless Network are now active at the Northwest Center. Previously users used "Northwest" however that wireless network is being phased out and all users should switch to PVmobilenet.

Going forward when Users (faculty, staff & students) need to connect to a wireless network at the Northwest Center, they should connect to the **PVmobilenet Wireless Network**. Next please open a web browser, and they will be directed to the PVmobilenet Login page.

Follow the steps below to log into the PVmobilenet

Connect to PVmobilenet and enter the network security key.

A screenshot of a Windows network connection window. The title bar says "PVmobilenet Secured". Below the title bar, it says "Enter the network security key". There is a text input field with a cursor inside. At the bottom, there are two buttons: "Next" and "Cancel".

The network security key is: pvamuwifi

At the Login page, sign in with your PPVAMU SSO username & password.

- Make sure to check the "I accept the Acceptable Use Policy" box

Welcome to the PVAMU Network

To access network resources, please sign in.

☐ I accept the Acceptable Use Policy

Sign In

Download & install the policy key and follow the instructions

- *This is a one-time installation*

Download the Policy Key

In order to ensure a safe environment for all users of the network, we require that certain devices install the Policy Key.

The Policy Key validates that your system meets the organization's standards per the Acceptable Use Policy.

See the FAQ for more information about the Policy Key.

Download Now

Click Download Now to install the Policy Key.

OR

For Windows 10 S mode only, click to run from the Windows App Store.

Welcome to the Policy Key Installer

Installation of this Policy Key is required for network access.
