

# The PVAMU student Gmail migration to Office 365 will be completed next week!

Greetings!

The migration from Gmail to Office 365 is nearly complete, and you have access to your Outlook (@pvamu.edu) account at [www.office.com](http://www.office.com). Starting *Friday April 2, 2021*, you will no longer be able to use your Gmail account to send and receive emails as we finish migrating student emails to Microsoft O365 .

Over the weekend, during the final steps of the migration from Gmail to Office365, there may be times that emails sent to your @student.pvamu.edu will take longer to be available in your Outlook inbox.

You can download the Outlook App from the Google or Apple App stores. (Your new Outlook calendar will sync best with the Outlook App.)

Anything sent to your @student.pvamu.edu account will forward for now; however, we ask that you transition any accounts using @student.pvamu.edu to @pvamu.edu sooner rather than later.

Although you will retain access to your Google Drive, now is a good time to clean out and back up files to ensure you have access to them while we are migrating documents to your Microsoft OneDrive.
