

SYLLABUS

Course Title: Construction Documents and Codes

Course Prefix: ARC Course No.: 4443 Section No.: P01

"The most grandiose of designs lies fallow, unrealized and in a questionable state if it is never constructed."

"..the act of architecture is not finished when the design is done, but when the building is built. However, must students see, and are taught, that the design is the end product." Gerald Weisbach, FAIA

Recommended Text/Readings:

Learning Resources

PVAMU Library:

Telephone: (936) 261-1500;

web: http://www.tamu.edu/pvamu/library/

Use the Reference Desk at the library where the staff is eager to guide your research. They can orient you to hard copies and on-line resources.

University Bookstore:

Telephone: (936) 261-1990

web: https://www.bkstr.com/Home/10001-10734-12demoKey=d

The Writing Center

Telephone: (936) 261-3700

The Writing Center's goal is to provide a friendly, stress-free environment for students from all over campus to meet with a consultant and talk about writing of all types. They provide a responsive audience and advice from experienced writers in sessions generally lasting thirty to forty-five minutes. Sessions of this length offer time to work individually with students on any aspect of the writing process: from brain storming and drafting, to revising and proofreading. They will explore ways to improve a student's overall writing skills. They do NOT proofread or edit for students, but instead teach proofreading and editing techniques. Their goal is to: make a better writer for the long term.

Student Academic Success Center

Telephone: (936) 261-1040

Student Academic Success Center identifies academic and social roadblocks that interfere with persistence and timely graduation of PVAMU students. SASC informs campus-wide policies by staying current with retention literature and best practices. Further, SASC develops programs and services that are specifically aimed at continuing the academic success of the first year. We strive to provide PVAMU students with "Navigation to Graduation".

The Tutoring Center

John B. Coleman Library in Room 209

Telephone: (936) 261-1561

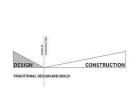

Hours: Monday through Thursday 12 pm to 9 pm and Friday from 8 am to 5 pm.

Email: <u>AEtutoring@pvamu.edu</u>

Open to all undergraduate students enrolled for credit in targeted PVAMU courses. offers help for:

- Microeconomics, Macroeconomics
- Management Information Systems
- History, Government
- Statistics, Basics Calculus II
- Psychology, Sociology
- English (Basics Freshman Comp II), Speech
- Spanish I&II
- Biology (Pre-Med, Pre-Nursing)
- Chemistry (Bio & Nursing Majors)
- Physics
- Materials & Science

Course Goals and Overview:

The practice of architecture is rapidly changing due to the expanding use of computerbased systems that provide huge advances in visual presentation and graphics, as well as in basic design work. For every hour spent in design it takes roughly 3 to 4 hours to draw the information from which a contractor can build the project. Thus, most of your architectural career will involve preparing technical and construction documents to communicate the project design to the builder in order to properly construct the work. Unfortunately, most architecture school graduates come into the professional workforce with little if any knowledge about how this process actually works. ARCH 4443 will focus on making sure that when applying for your first job after graduation, you do so with an advantage over those graduates who focused solely on design and presentation skills. The primary emphasis (goal) of this course is to help you to understand the architect's role in preparing construction documents and specifications and understanding their importance to the general contractors. The student should improve their understanding of the technical aspects involved with project documentation

Course Outcomes	Learning Objectives
-----------------	---------------------

At the en	nd of this course, the students will.
4443.1	Learn the critical knowledge related to the important role of architectural construction documents
4443.1	and codes in transforming design concepts into real projects.
4443.2	Understand the composition of construction documents (drawings, specifications and contracts)
4443.2	issued to the general contractor.
4443.3	Understand the sequencing of architectural construction documents as issued to the general
4443.3	contractor for a project with emphasis on plans, elevations and sections.
4443.4	Develop and to demonstrate the ability to manage a project and oneself, to be a team player and a
4443.4	team leader
4443.5	Develop and to demonstrate the ability to solve problems. Develop and to demonstrate the ability to
4443.5	effectively communicate to the project team.
4443.6	Prepare for future job opportunities after graduation.

Course Requirements & Evaluation Methods

This course will utilize the following instruments to determine student grades and proficiency of the learning outcomes for the course. (Instruments will vary slightly depending on the course)

- Assignments/Papers/Exercises: Written assignments designed to supplement and reinforce course material
- Exams: Written tests designed to measure knowledge of presented course material
- Projects: Assignments designed to measure ability to apply presented course material
- Class Attendance/Participation: Daily attendance and participation in class discussions

Grading Matrix (Points will vary according to instructor's grading system. At no time should the value of all potential points exceed 100%.)

TABLE 1: INDIVIDUAL	L PERFORMANCE MEASURES

PERFORMANCE MEASURES	POINTS	%	COMMENTS
EXAM #1	3,000	20%	See Class Lecture and Event Schedule
EXAM #2	3,000	20%	See Class Lecture and Event Schedule
EXAM #3	1,500	10%	See Class Lecture and Event Schedule
ASSIGNMENTS-REAL LIFE SCENARIOS	1,500	10%	See Class Lecture and Event Schedule
INVOLVEMENT/ATTENDANCE	6,000	40%	(5 weeks x 3 class/week x 400 points/class
			period) =6,000 points
TOTAL GRADE POINTS AVAILABLE	15,000	100%	
	500		Potential growth points
TOTAL POTENTIAL POINTS	15,500		
TABLE 2: GRADE SCALE			
Grade Determination:	Α	100-90 %	13,500 or over
	В	89-80%	12,000 to 13,499
	С	79-70%	10,500 to 11 ,999

	D	69-60%	9,000 to 10,499	
	F	59% and below	0 to 8,999	
	Α	100-90 %	13,500 or over	
Course Procedures Edit to comply with your course ()				

Taskstream

Taskstream is a tool that Prairie View A&M University uses for assessment purposes. One of your assignments may be considered an "artifact," an item of coursework that serves as evidence that course objectives are met. More information will be provided during the semester, but for general information, you can visit Taskstream via the link in eCourses.

University **Attendance Policy:**

Prairie View A&M University requires regular class attendance. Excessive absences will result in lowered grades. Excessive absenteeism, whether excused or unexcused, may result in a student's course grade being reduced or assignment of a grade of "F." Absences are accumulated beginning with the first day of class.

Instructor's Attendance and **Participation Policy**

As a student in a professional practice course at Prairie View A&M University you are expected to attend each class. Class attendance is recorded on roll sheets that are circulated to record your name and signature. Since attendance is critical to the learning objectives and the class discussions, a 400 point involvement grade is awarded for each class period (200 points for Part 1 + 200 points for Part 2). You start with 100 points for attending each class session under the assumption that you have come to learn. However, to gain an understanding of construction materials and installation methods, you must do more than just show up. Attentiveness is important. For example, showing up for class and then reading the newspaper will cause a deduction from your 100 points. Other things that could cause you to lose points would be sleeping in class, working on other assignments in class, being late, being rude or being disruptive. However, if you are attentive during the lectures and discussions, you will be awarded an additional 40 points for each class. The remaining 60 points per class are earned by action on your part such as diligently taking notes, finding or sharing your thoughts on the subject being discussed, or asking a thoughtful and appropriate question. These points, plus potential bonus points, could also be earned by writing a one-page reaction paper about the class material or finding an insightful article from the newspaper or an architectural magazine. If you are late to class you are subject to losing all or parts of the 60 participation points. Typical deductions for being late are: Up to 5 minutes: 0 points; from 5 to 10 minutes: 20 points: from 10-15 minutes: 40 points; and over 15 minutes: 60 points.

You are not in competition with your fellow classmates for involvement points. Each student can receive 200 points per class session as long as they are legitimately earned. At the end of the semester, the instructor may award a growth grade worth an additional 400 involvement points based upon their overall assessment of your participation, growth and development during the semester. Participation and absences are accumulated beginning with the first day of class on June 4, 2018 (1st 5 week session and 10 week session. If you do not come to class, you may assume that you have received zero (0) points for the class period unless you have a university approved excuse in one of the following classifications:

- 1. Participation in an activity appearing on the University authorized activity list.
- 2. Death or major illness in a student's immediate family.
- 3. Illness of a dependent family member.
- 4. Participation in legal proceedings that requires a student's presence.
- 5. Religious holy day.
- 6. Confinement because of illness.
- 7. Required participation in military duties.

If you miss class for one of these reasons, you must provide a memorandum plus supporting documentation to clear the absence from your record. These documents will be accepted for ONE WEEK AFTER THE ABSENCE HAS OCCURRED. There will be NO exceptions to this rule. This includes student-athletes who are to provide university forms for reporting absences to participate in approved competitions. Emails will not be accepted to clear these absences. After that, the involvement grade stands. If you have another reason other than these seven for being absent, you may submit a memorandum with supporting documentation requesting that the absence be removed from you record

	for ONE WEEK AFTER THE ABSENCE HAS OCCURRED. There will be NO exceptions to this rule. All requests will be reviewed and approved or disapproved based upon the justification that you provide in your memorandum. While other reasons for being absent are rarely approved; it is understood that you might feel that there is a higher priority that requires you to miss class. In accepting your decision to miss class, you must also be willing to accept the instructor's decision to not award you involvement points for the class or classes that are missed. To assist you in recovering lost points, there is an opportunity to earn up to 500 additional points towards your final grade
Conduct of the Class and Care of the Facility	Students and faculty are expected to conduct themselves in ways that support individual learning and the learning of others. To that end members of the classroom community will conduct themselves in a professional and ethical manner to achieve these objectives. Any conduct construed to interfere with the learning opportunities of members of the class may result in the removal of the student from the class for that day. Repeated inappropriate conduct will result in permanent removal from the class. Based upon the fact that you are preparing for professional employment, you are expected to adhere to the following specific guidelines: 1. During regular class periods all students are expected to dress appropriately in accordance with university regulations so that no disruptions in the learning experience will occur. 2. No hats or caps will be allowed to be worn in the classroom during class sessions. If you elect to wear a hat or cap during the lectures or class discussion, your decision will be respected. However you should also respect the instructor's decision to not award you daily participation points based upon that decision. 3. Dress Code for Presentations: Professional dress is expected for all design and technical presentations in class. Failure to adhere to the guidelines posted by the instructor will result in a deduction of ten percent (10%) from your final presentation score. 4. No food or drink is allowed in the classroom at any time. 5. Cellular telephones are to be turned off or put on silent ring tone during the class period. Texting is strictly prohibited during the class period. No "ear phone" units will be allowed. If your cell phone rings during the lecture or you are texting you are subject to losing all participation point for that class period. 6. Laptops must emit no noise. Make sure your laptop is warmed up and your battery charged before class starts. A laptop is allowed only for taking notes or accessing relevant corres material during the class. Checking email, playing a game, me
	 on time and stay throughout the entire class period. Leaving the classroom before the class is dismissed without prior approval from the instructor will result in a loss of participation for that class. 3. All class members are required to keep the classroom in a clean and orderly manner to facilitate the number of students using it each day. Failure to maintain the classroom as requested by the instructor will result in a deduction in participation points for all class members for that date of instruction. 4. Lecture Notes and Handouts will be sent to your official university email. Handouts distributed during a class period will not be distributed at any other time. It is the
	student's responsibility to get a copy form another student or source.
Submission of	Assignments are due at the start of the class session. No late work will be accepted
Assignments:	without proper documentation.
Formatting	Microsoft Word is the standard word processing tool used at PVAMU. If you are using
Documents:	other word processors, be sure to save the document in either the Microsoft Word, Rich-
	Text, or plain text format.
Exam Policy:	Exams should be taken as scheduled. No makeup examinations will be allowed except

	please use APA standards to reference sources.
Technical Support:	Students should call the Prairie View A&M University Helpdesk at 936-261-2525 for technical issues with accessing your online course. The helpdesk is available 24 hours a day/7 days a week. For other technical questions regarding your online course, call the Office of Distance Learning at 936-261-3290 or 936-261-3282
Communication Expectations and Standards:	All emails or discussion postings will receive a response from the instructor, usually within 48 hours. Urgent emails should be marked as such. Check regularly for responses. You can send email anytime that is convenient to you, but the instructors will check their email messages continuously during the day throughout the work-week (Monday through Friday) during normal office hours. Instructors should respond to email messages during the work-week by the close of business (5:00 pm) on the day following their receipt of them. Emails received on Friday will be responded to by the close of business on the following Monday.
