ARTEC – Architecture Enrichment Concept is offered to high school freshmen, sophomores, and juniors interested in architecture, construction science, art, and digital media arts.

The mission of the ARTEC summer program is to expose students to the one week of staying on campus to college life. It also prepares them to understand the built environment and the roles an Architect, Construction Manager, Graphic Designer, and Developer play in planning and building sustainable, vibrant communities.

Students will interact with the School of Architecture faculty of each program listed above. They will work in teams and individually on designing projects in the studio, building models in the Fabrication Center, and exploring graphic design and interactive media. They will be introduced to significant roles as practitioners and leaders in the community.

**Program Dates**: July 17 – 23, 2022

**Move-in Day**: July 17, 2022

**Cost**: $500 per student, covering board, food, supplies, and activities for the one week on campus.

Program Coordinator: Ms. Billie Evans –bjevans@pvamu.edu (936) 261-9803
