Spotlight: Fire & Life Safety

The Fire/Life Safety office manages contractors who are hired by PVAMU to do inspections. These include fire alarms, commercial kitchens and fire hydrants all over campus. They recommend that everyone on campus be alert and work together to prevent unnecessary fire hazards such as:

- Disarming door alarms
- Disabling Smoke detectors
- Propping doors open
- Burning candles
- Leaving electric heaters plugged in overnight
- Failure to evacuate the premises when there is an alarm

These precautions are in place for everyone’s safety. The Office of University Compliance encourages you to make a report if you see something unsafe. **Fire & Life Safety Training is available in TrainTraq under Course Catalog>TAMUS Member: PVAMU>Course #: 2111398.**

**What to do if there is a fire alarm on campus:**

- Never assume it’s a drill! Always act on the assumption that the fire is real.
- If your identification is nearby, grab it and exit the building leaving the doors unlocked.
- Follow the evacuation plan to get out of your building.
- If your building has a designated space to assemble, please proceed to the area. If you do not have a designated space, please stand away from the building being evacuated and wait for emergency personnel or your senior building coordinator to clear the area.
- Do NOT reenter any building until you have been given the all-clear to do so.

Ensure that you are following the fire safety rules at all times and remember that we must do our part to make sure the university is a safe place for everyone.

Culture of Compliance

Every employee of the Texas A&M University System has a responsibility to promote a safe and ethical environment. It is our responsibility to report fraudulent, wasteful, risky or abusive activities. If you have information that identifies participation in these types of activities, we ask that you report it to the appropriate area so we can continue to promote a safe environment and a culture of compliance.

Risk, Fraud and Misconduct Hotline

We always recommend resolving a concern through the appropriate administrative channel whenever possible, but we recognize this is not always an option. In such circumstances, we encourage the utilization of the Risk, Fraud and Misconduct Hotline so that the concern can be properly addressed. Please note the Hotline is available 24 hours a day, 365 days a year.

To report such activities, call the A&M System Risk & Misconduct Hotline at 1-888-501-3850 or submit a report via the Internet at the System's Risk & Misconduct Hotline. Another option is to call the State Auditors Office at 1-800-892-8348 or submit a report via the Internet at sao.fraud.state.tx.us.

The Office of University Compliance is joined by other compliance areas to provide a robust, university-wide compliance program. Specifically, the Office of University Compliance is responsible for providing leadership and oversight of ethics and compliance through its audit liaison role; training and development activities; management of the policy library and hotline system; conducting investigations and reviews; and its Title IX, Clery, Athletics Compliance and Public Information Act programs.

System Regulation 16.01.01, Ethics and Compliance Programs, requires all members of the Texas A&M University System “to develop a compliance plan specific to the member that identifies risks, establishes mechanisms to systematically address those risks, and monitors the effectiveness of mitigation measures.” Areas of risk are chosen based upon a variety of reasons including changes in laws, regulatory enforcement initiatives, management’s identified enterprise-wide risks, audit and compliance review results and current events.

The 2022 Compliance Plan includes the following risk areas:

- Human Resources (HR)
- Campus Safety
- Information Technology
- International Activities
- Radio Station
- Drug and Alcohol Abuse Prevention Program
